Workshop Overview:

This is an inter-professional continuing education (CE) workshop taught by a team of inter-disciplinary clinicians. The programme will provide participants the holistic knowledge required to combat the top chronic condition in Singapore. This workshop has been certifying & re-certifying local & international healthcare professionals since 2011.

Workshop will only be confirmed if there are a minimum of 20 registered participants as of 8th March 2019.
Breakfast, lunch & tea will be served.
CPE points recognized workshop.
