

Lennon Goh
Class of 2025

Why study Pharmacy? And how has the journey been thus far?

I have a deep interest in the pharmacology of drugs and the heart to help other - Pharmacy is the course that truly complements both my interest and passion. The journey is definitely a fulfilling one as we get to embark on exploring the various system sciences and therapeutics that are both meaningful and exciting.

What interests you most in your studies?

I am most interested in Applied Patient Care Skills. These skills are especially relevant and applicable to the real-life context where we learned how to better communicate with the patients so that we can elicit their ideas, concerns, and expectations to provide better healthcare for them. Not only that, but we also learned how to relay complex ideas into simpler terms that are easier for patients to understand so that they are able to make more informed decisions.

Xperience Pharmacy
Camp 2022

What other interesting activities did you partake in to further enrich your student life, e.g. extra-curricular activities on campus ?

University life wouldn't be as fulfilling without taking part in those extra-curricular activities that you are interested in! Being the Director of the Pharmacy Profession Awareness Committee (PPAC), I have created many everlasting memories in pursuit of promoting and spreading awareness of the Pharmacy profession to both the public and to our students. One of my fondest memories would be the Xperience Pharmacy Camp 2022 that took place in December 2022 where we invited 120 students from Junior Colleges and Polytechnics to learn more about the Pharmacy and Pharmaceutical Science programmes in NUS.

What advice do you have for the incoming students or juniors?

If you have a strong interest in pharmacology, a compassionate heart and the will to go above and beyond for your patients, then join me in Pharmacy as we strive to make meaningful impacts on the lives of others!
