The Art of the 5Cs 4Ds: Evonne Fouesnant's formula to success

Others speak of the 5Cs of success, but for Ms Evonne Fouesnant (Class of '96), it is about the 4Ds: Dancing, Diving, Drugs and Developing organisational capability.

Like many alumni, Evonne started out as a pharmacist. Thereafter, she took bold dives and danced her way to found her own consultancy firm and lead a portfolio career today. Read on to learn how this alchemist mixes her healthcare expertise and hobbies to concoct a formula of success, one fuelled by passion and curiosity.

INSIDE AND OUTSIDE THE CLASSROOM

The Department officially opened its new Core Facility and the NUS PPS–MGI Tech Multi-Omics Laboratory on 24 February 2026. The Core Facility will support industry and research partners with expertise and hands-on training in formulation sciences and drug delivery, covering preformulation, prototype development, evaluation/validation, and analytical method development. The Multi-Omics Laboratory, a collaboration with MGI Tech, brings advanced genomic sequencing and multi-omics capabilities to enable research in precision medicine, drug discovery, and pharmaceutical sciences across areas such as single-cell, spatial, and epigenomics.
